

**Scouts with Compassion initiative:** is an initiative to have Scouts write inspirational letters to the shut in community, elderly, and their caregivers during the COVID19 epidemic. The purpose is to let our elderly population know they are not forgotten and to teach compassion to our Scouts.

To avoid the spread of COVID19; we will utilize online file sharing as our means to distribute. Lombard Cub Scout Pack 157 has created a "[Scouts with Compassion](#)" online photo album.

### **Scout Unit Leaders:**

We would like your help with this project. Please share this and inspire your Scouts to generate & participate in this service project. Please use this moment to teach your Scouts compassion. Also, please help us find and share this service project with caregiver facilities. As this pandemic will affect us for an undetermined amount of time; please participate in this on a weekly basis. Together we can make the world a better place.

### **Caregivers:**

Thank you for your service! Please go to our shared online album and share the content with your patients and staff. You are welcome to print out or digitally share the contents of this album. Please check back frequently for new content uploads. We hope this small gesture of appreciation brings some happiness to you.

Thank you all for sharing your compassion with the world
